## MILAN LIBRARY EXPANSION MOVES FORWARD

It is with great enthusiasm that we announce the next chapter of the Milan Public Library. On July 16, the Library Board voted unanimously to award the construction contract for the Milan Public Library expansion and renovation project to Studer-Obringer, Inc, a New Washington private construction firm, for the total contract amount of \$1,494,200. Their firm submitted the lowest and best contract sum from a bidding pool of ten contract proposals.

Construction is scheduled to begin in August with a **PUBLIC GROUND-BREAKING CEREMONY** set for **Friday, August 31 | Friday | 11:00 AM to Noon.**

This expansion gives us the opportunity to continue meeting the needs of you, our community, for years to come. As we move forward with the project, we welcome everyone to visit the library to view the construction and learn about the latest updates. We thank the community for all the support in making this project possible!

The expansion includes the renovation of the library's current 8,500 square feet and the addition of 6,250 square feet of new space.

The completed library will house an expanded children's area, community-meeting spaces, improved browsing and reading areas, and a dedicated research room for local history and genealogy.

The total project cost is estimated at \$2 million, to be paid for with existing funds and private donations.
